

YOUR OILFIELD AND INDUSTRIAL PRODUCTS SOLUTION.

www.mccartyequipment.com

Specializing in Belts, Hose, & Valves for the Oil and Gas Industry.

McCARTY EQUIPMENT

Founded in 1976 by R.L. McCarty, McCarty Equipment Company began with a core product base in Abilene, Texas and quickly established the reputation of customer service, product satisfaction, and competitive pricing. Keeping to its core marketplace of being a wholesale supplier to Oilfield Supply companies, McCarty Equipment broadened its base product line to fill the specialty marketplace. Teaming with major manufacturers such as Anvil International, Balon, Gates, ContiTech, NRP Jones and WIKA, McCarty has developed a partnership with these and other manufacturers to not only sell quality products, but offer service after the sale. With multiple locations throughout the United States, McCarty Equipment is ready to serve your oil & gas supply needs anywhere.

OUR POINT OF DIFFERENCE IS...

Our point of difference is our close proximity to our customer base, our customized solutions, and our value added services.

McCarty Equipment has carefully assembled a team of highly trained managers whose entire focus and commitment revolves around providing customized solutions in specific, high-demand product categories. We are nationally recognized for our expertise in product management, customer product training and service, suggested preventative maintenance, downtime reduction, and throughput/production maximization.

- Our value added services include custom oilfield, hydraulic and industrial hose fabrication as well as customized gasket fabrication.
- As part of GHX Industrial and The United Distribution Group, we have locations throughout North America.
- Since 1976, our unwavering commitment and mission has been to provide unparalleled service to the energy industry.
